diplomat[®] **SAFE** ▲ 디프로매트 금고

Greetings from CEO

Your Satisfaction is our goal !

The managing group of Diplomat Safe Ltd extend our sincere greetings to all Diplomat Safe customers on behalf of all Diplomat Safe staffs and workers.

Since 1982, we have been engaged in shipping quality safes to global markets enjoying very high reputation. We believe that such a big success has come from all Diplomat Safe customers' interests to Diplomat safes and friendly encouragements to us.

As indicated in our company mark, we make it a rule to establish the

utmost business relationship with the customers on the basis of trust. Trust is our managing philosophy to fulfil the goal of customer satisfaction in managing the business. What we pursue is how to maximize customer satisfaction in quality, in price, in delivery and in service.

To reach these corporate goals, we keep on developing products and promoting the quality improvement on the corporate basis. Furthermore, we never stop investing to enhance the possible sources for development of new

products and quality improvements.

Promising more advanced products, faster deliveries and diversified services, we expect your everlasting supports to Diplomat Safe.

We wish all Diplomat Safe customers more prosperous and successful business and good luck.

Footprints of Diplomat Safes

In 1982 a small safe company was founded in Busan, Korea, named Diplomat Safe Ltd. At the time when all the local safe manufacturers were in a deep sleep, Diplomat Safe was just born last but grew up rapidly to a top leader of fire safe manufacturing business in Korea.

Diplomat Safe Headquarters and factory are located in Noksan Industrial Complex in Busan, which is the most modern industrial park. Diplomat Safe operates its business activities worldwide and supplies all kinds of safes worldwide in a very high reputation.

Diplomat Safe never stops development of new products, improvement and innovation with new skills and techniques. In the result of everlasting and utmost customer satisfaction policy over 30 years, Diplomat Safe has finally won

the title of World Class Product Manufacturer from the Korean government in 2002. It must be an honor and pride to all Diplomat Safe customers as well as ourselves.

At present Diplomat Safe produces and handles a variety of safes such as regular Fire safes, Premium Fire safes, Data safes, Fire filing cabinets, Hotel room safes, Key cabinets, Depository safes, Deposit boxes, Electronic digital locks and Alarms. Diplomat fire safes are all certified in heat endurance test by the worldwide famous testing institutes SP, UL, GOST and KS. To keep a very high level quality and service we perform every managing process in compliance of ISO 9001 since 1996.

Diplomat safes with up-to-date electronic digital locks offer

more security and convenience, and in addition more advanced products are continuously launched in a row.

What *diplomat*[®] brand means?

In the dictionary the word 'diplomat' is defined a person who is employed to represent one country in another, such as an ambassador. We Diplomat Safe wish to make a role of ambassadors representing our country KOREA in the world with our high quality products such as various kinds of fire safes and filing cabinets.

To fulfil such a role, we must be responsible for how to make the products in higher level and how to treat our customers around the world. We remember this policy all the time and do our best to be an excellent producer of brand safes and to maximize our customers satisfaction.

Company mark means?

Our company mark  originates from a Chinese character 信, which means TRUST. The left solid triangle is from the left part (信) of the character 信, and the right one with stripes is from the right part (言) of 信.

In a word, we make it a rule to proceed all the business performances on the basis of trust. We do believe that nothing can be done without trust, especially in international business.

This mark includes two additional meanings. The left triangle represents the managing group, and the right one does workers. If either of the triangles stands alone, it looks unstable, but when both stand together, they make

another bigger stable triangle. That's the harmony we pursue.

Lastly, the right triangle with stripes gives us the importance of basics, going up step by step, finally we reach the top. That's justice in a fair business. Totally to say, it's the managing philosophy of Diplomat Safe Ltd.

Quality Certificates & Labels

Diplomat Safes passed in fire test by world class fire testing institutes.

diplomat SAFES made in the modern factory under Quality Management System ISO 9001 are assured in quality of highly reputed in the global market. They are fire resistance and stability of electronic digital lock.

Fire Resistance Test

Safe Loaded in Furnace ①

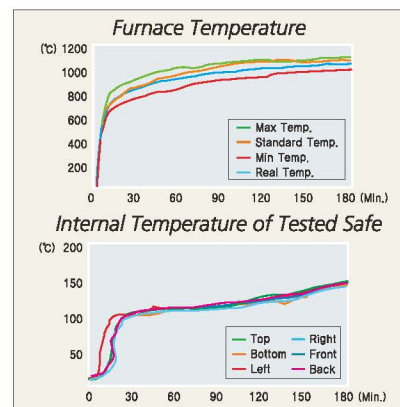

Test specimen is loaded in the furnace. Temperatures at six(6) points inside the safe are checked by the sensors of thermocouples.

Heating Test ②③④

At the temperature of 1,010 °C the safe is heated in the airtight furnace over 60 minutes to 120 minutes. The maximum inside temperatures allowed by SP and KS are 150 °C and 177 °C respectively.

Check Result ⑤

Heating test is finished and the test safe is taken out to check if the inside paper matters are safe without burnt out. KS defines that the papers should be readable.

Test Result

Mark	Country	Certified Temp.	Contents
	Sweden	150°C	Paper
	Sweden	30°C / 50°C	Diskette / Data Media
	Korea	177°C	Paper
	U.S.A	177°C	Paper
	Russia	170°C	Paper

Fire Safe

Imagine what would happen if your home or business were suddenly wiped out by fire.

Insurance could replace most of your furnishings, but important documents like deeds, wills and certificates would be lost. A fire could also destroy photographs, jewelry and other irreplaceable items in a moment. There is only one effective way to protect your valuables against fires. That's to keep them in a FIRE SAFE. Most people accept that a safe is the best solution. Sizes and models are available for any purpose.

Development and Innovation

Model : 130EH

-  Amazing fire resistant Insulation **STYRONITE F ①**

■ Frame ②

- Recessed double curvature frames provide virtually airtight construction preventing smoke and heat damage.

■ Accessories ③④

Model 060 and Above

- Key locking compartment drawer is provided.
- Fully adjustable shelf or shelves

Model 119 to 530

- Plastic tray
- Adjustable shelf

■ Locking Bolts ⑤⑥

Model 100 and Above

- 3 way(up and side) active bolts and recessed double curvature frames from top end to bottom end work as dead bolts.

Model 060 to 080

- 3 way(up and side) active bolts and dead bolts provide.

Model 119 to 530

- 2 way(side) active bolts and dead bolts provide.

■ Paint & Rust Free

- Top quality urethane antirust primer coated. Durable acrylic urethane leather-tone finish in smart modern colors makes the surface more smooth and bright, preventing scratches and worn-out.
- 100% top quality galvanized steel plate and antirust refined durable paint keep rust free. Every safe is cleaned to remove toxic foreign matters before painting.

■ Handle Snaps

Model 060 and Above

- Handle snaps into position automatically when door is closed.

■ Wheels ⑦

Model 060 and Above

- Wheels

Model 119 to 530

- Plastic feet

-  Amazing fire resistant Insulation **STYRONITE F ①**
-  Fire Protection for 60min according to NT FIRE 017 60 Paper
- **Frame ②**
 - Recessed double curvature frames provide virtually airtight construction preventing smoke and heat damage.
- **Accessories ③④**
 - Key locking compartment drawer is provided.
 - Fully adjustable shelf or shelves
 - Spacious interior dimensions allow for more efficient and larger storage area.
 - Sophisticated Die-casting Handle
- **Locking Bolts ⑤⑥**
 - Durable boltwork (sides/up/down, $\varnothing 22$)
 - Recessed double curvature frames from top end to bottom end work as dead bolts.
- **Re-locker(s) provides more security.**
- **Paint & Rust Free**
 - Top quality urethane antirust primer coated. Durable acrylic urethane leather-tone finish in smart modern colors makes the surface more smooth and bright, preventing scratches and worn-out.
 - 100% top quality galvanized steel plate and antirust refined durable paint keep rust free. Every safe is cleaned to remove toxic foreign matters before painting.

Data Media Safes

How safely your computer media are protected against fire?

Computer media such as diskettes and floppy discs may be easily damaged in a low level of heat (above 50 °C) or humidity (above 85%). For example, even a cup of boiling coffee can destroy your data materials seriously.

The lost data by heat or humidity can't be recovered in a short time because most of them are the piled business records related with the customers for a long period. It is reported that many of the businesses affected by fire suffer from the damages and are declined in the end. This could happen to you at home or in the office.

But, you can be free from such worries with **Diplomat Data Safe**. **Diplomat Data Safe** certified by SP (Swedish National Testing & Research institute) will protect your business records from fire, humidity and unauthorized access. **Diplomat Data Safe** is constructed with a regular fire safe and a multilayer anti-thermo insert to block heat, smoke and humidity.

Interior heat endurance test by SP

Diplomat Data Safe is fire-tested and approved by SP (Swedish National Fire Testing & Research Institute).

The heat endurance of the insert has been checked with six thermal couples at six different points (25mm apart from the surface of two sides, door, back, top and bottom), and each thermal couple should indicate less than 50 °C for certification. All Diplomat inserts passed 120 minutes at the temperatures of 40 °C to 45 °C.

Fire Filing Cabinets

A smart and sound Diplomat Fire Filing Cabinet gives convenience and security at home or in the office.

VFC,
Vertical Fire Filing Cabinet

LFC,
Lateral Fire Filing Cabinet

- Insulation is Diplomat's own amazing fire resistant STYRONITE F.
- Simply designed rimmed knob and card holder looks smart
- The frame of drawer fits the body without play.
- Heavy duty suspension slide rails make the drawer move back and forth smooth and endure the weight up to 50kg(VFC) / 45kg(LFC).
- Each drawer is isolated from the others in fire.
- Tight construction of body and drawer prevents from smoke and heat.

Fire Tested and Certified

- ▶ Diplomat Fire Resistant Filing Cabinets have been fire tested and approved in compliance with NT FIRE 017
- ▶ Fire Class : 60 Paper

• Dimension : Depth 500mm • Virtual combination

DB, Deposit Box

DB Series has upward door opening system and the door automatically opens when unlocked. Much more improved than conventional DBs in convenience and security.

- **Automatic door opening system** gives more convenience. When a customer unlocks the door, it opens upward and the bond boxes automatically slide out.
- **Durable security** Compared with one lock system, DB's two locks system provides durable security. With steel reinforcement in front, each box is more resistant against drilling outside.
- **Space save and easy installment** Compact deposit boxes save space in installment. Upward opening door requires less space in the right side.

Digital Locks

EDL88, R3 (Button Digital Lock)

- FND window
- User Code : 4 to 16 digits
- Master Code System
- Code Hide System
- Scramble Numbers
- Dual Locking with two codes
- Paralysis Function
- Low Battery Indication
- Built-in Alarm
- Reset Function

EDL77, R2 (Button Digital Lock)

- User Code : 4 to 16 digits
- Master Code System
- Paralysis Function
- Reset Function

TFL (Touch Screen & Fingerprint Lock)

- FND window
- Operated with user code or finger print
- User Code : 4 to 16 digits
- 128 finger prints are acceptable
- Master Code System
- Code and Sound Hide System
- Scramble Numbers
- Dual Locking with two codes
- Paralysis Function
- Low Battery Indication
- Built-in Alarm
- Reset Function

TSL (Touch Screen Lock)

- User Code : 4 to 16 digits
- 5 different user's code available
- Master Code System
- Scramble Numbers
- Sound Hide System
- Paralysis Function
- Low Battery Indication
- Built-in Alarm
- Reset Function

NABI (Button Digital Lock)

OAK

- FND window
- User Code : 6 digits
- Changeable Master Code System
- Outside battery loading and change
- **Override System for Emergency (Option)**
: Audit trail with print-out option for 100 past records

EASY (Button Digital Lock)

OAK

- FND window
- User Code : 6 digits
- Inside LED Light
- Master Code System
- Emergency Key
- Low Battery Indication
- **Override System for Emergency (Option)**
: Audit trail with print-out option for 100 past records

Main PCB

Solenoid type
Applicable
Model 119 ~ 530

Swing-bolt type
Applicable
Above model 060

Certificate Labels

CE Electromagnetic safety test CE certification

RoHS 6 hazardous substances compliance with use restrictions in EU
